Add Seasonal Spa Package for \$25 to any bathing service you choose!

A La Carte Grooming Services

Giant breeds or dogs that are difficult to handle will have a \$20 added handling charge. Final prices determined by groomer based on size and breed/coat.

Feet, Face & Fanny Trim	Bath, Blowout & Brush	Deshedding Add-on
\$30	\$20 - 50	+\$15 to any bath service
Trim up that extra hair around the pads of their feet, around the eyes and lips on their face, and around their fanny.	Scrub-a-dub-dub, give your pup a fresh look and smell with one of our professional bath and brush services.	Attention heavy shedders! Specially formulated shampoos and conditioners, brushes and high velocity dryers are used to remove the undercoat.

Nail Trim	Nail Coloring	Hair Coloring
\$15	\$8	\$30+
Our nail trim service uses both clippers and a dremel to get those nails under control.	Looking for that perfect touch to your pup's groom, look no further than adding a splash of color to their nails.	Let's spice it up! Our professional groomer is ready to work with you on some super fun hair dye colors.

Ear Cleaning	Dental Cleaning	Anal Gland Expression
\$10	\$12	\$15
We are happy to flush, clean and dry your pup's ears, perfect for those dogs who love to play in the water.	Let's freshen up! Toothbrush goes home with you, bring it back to us on your next visit and get \$5 off the next dental cleaning.	Is your dog scooting or trying to clean its anal area? Maybe it's time to express those anal glands and give your pup the relief they deserve. Let us do the dirty work for you!

Dematting Service	Pre-Shave Service (typically tied to Dematting)	Flea & Tick Bath (Special Cases Only)
\$20 - 50	\$25 - 30	At cost, not to exceed \$100
Dematting may be added onto any of our grooming packages. The groomer will take extra time to reduce any pain or anxiety associated with removing matted hair. Our groomer will have a discussion with you prior to performing this service.	If the matting of your dog's coat is extreme, a pre-shave service will be required before grooming. This takes extra time because the groomer must go slowly to not cause any pain or injury. It also causes wear and tear on the grooming tools.	Dogs with Fleas or Ticks will typically not be admitted into the resort. In cases where we discover it after the fact, we will treat the dog and charge all cost back to the customer.
